5. With regard to the abstract,		AP)		
the text is approved as sub	• • • •	ie i		
the text has been establish may, within one month from	ed, according to Rule 38.2(b), by this Author n the date of mailing of this international sear	ity as it appears in Box No. IV. The applicant report, submit comments to this Authority.		
6. With regards to the drawings ,		,*		
a. the figure of the drawings to be pu	blished with the abstract is Figure No1			
X as suggested by the	e applicant.			
as selected by this	Authority, because the applicant failed to sug	ggest a figure.		
	Authority, because this figure better characte	erizes the invention.		
b. none of the figures is to be	published with the abstract.			

International application No.

INTERNATIONAL SEARCH REPORT

PCT/CA2004/001027

Box No. IV Text of the abstract (Continuation of item 5 of the first sheet)

A method of controlling the foam generated during a beer wort fermentation is provided in which the pressure in the wort - containing tanks such as a fermentor is varied according to a cycle which allows the pressure to rise to a value preferably of less than about 1.03 bar when it is released until the foam bed stabilizes. The cycle is then repeated. The improved methods allow for less headspace in the vessel and greater efficiency in carbon dioxide collection.
